Message from the President

Welcome to the APA Division 45 Convention Program! We have an outstanding and provocative program planned by Doris Chang and Grace Kim (Program Co-Chairs). The program is intended to discuss, analyze, and debate from a psychological perspective hot button issues dealing with race, ethnicity, and culture in American society including: What can we learn about the evolution of race relations from the election of President Obama? How can psychologists expand our focus to address structural racism and violence towards people of color? How can we become more culturally competent in working with and studying people of different races, ethnicities, and intersecting identities? These important questions will be discussed by leaders in the field as well as by researchers, practitioners, and students. Many of the sessions will be interactive. This Convention program has something for everyone and we hope you take the opportunity to participate as much as possible.
